Journal: Paediatrics & Child Health. 13 (5): 395-398

Abstract:

In June 2008, during the 85th Annual Conference of the Canadian Paediatric Society (CPS) in Victoria, British Columbia, a new CPS Section will hold its inaugural business meeting. This will be the Paediatric Environmental Health Section, which will bring together paediatricians, health professionals and scientists interested in promoting an evidence-based approach both to environmental health issues important to children and youth, and to education of health professionals and the public on these issues.

Resource Description

Exposure :

weather or climate related pathway by which climate change affects health

Unspecified Exposure

Geographic Feature:

resource focuses on specific type of geography

None or Unspecified

Geographic Location:

resource focuses on specific location

Global or Unspecified

Health Impact:

specification of health effect or disease related to climate change exposure

General Health Impact

Medical Community Engagement:

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

Climate Change and Human Health Literature Portal

Population of Concern: A focus of content

Population of Concern: ☒

populations at particular risk or vulnerability to climate change impacts

Children

Resource Type: ☒

format or standard characteristic of resource

Policy/Opinion

Timescale: ☒

time period studied

Time Scale Unspecified
